

Quality | Reliability | Consistency

HDD Products

Drill Bits

Hartwell's revolutionary drill bit design for the HDD industry include four forward and three rear facing variable nozzles and tapered back for swabbing the hole.

- Easily obtainable and inexpensive NPT thread nozzles.
- One piece balanced design.
- Premium 4140 HT steel.
- High quality cutters made in USA.
- API pin standard, custom connections available.
- Diamond and tungsten carbide gauge protection.
- Variable nozzles allow fluid flow to be changed to accommodate any drill rig size.
- Tapered back with tungsten carbide wear protection.

Backreamers

Hartwell's backreamers are designed specifically for the HDD (Horizontal Directional Drilling) industry. Built as a single unit, or with replaceable blades, our heavy duty backreamers are designed with strength and speed in mind.

- Variable threaded nozzles.
- Premium 4140 HT steel.
- High quality cutters made in USA.
- Custom connections available.
- Diamond and tungsten carbide gauge protection.

A division of Hartwell Industries, Hartwell Drilling Products leverages more than 60 years in the drilling industry. Our knowledge and expertise goes far beyond the engineered product. We have worked in and understand the markets we sell to. We appreciate the need for quality products, cost control and expedited service. We expect it from our suppliers and we pass that on to you.
